ACTION INITIATIVE:

WOMEN IN THE C-SUITE AND EXECUTIVE LEADERSHIP WITH P&L RESPONSIBILITY

VISION

Our definition of success for this initiative is full gender parity in the C-Suite by 2030. In order to do this, we will collaborate with corporations and nonprofits to build the pipeline and highlight best practices in promoting women, with special consideration for women of color, across the C-Suite.

OUTLOOK

According to the World Economic Forum the proportion of women in senior executive roles globally has been stuck at 24% for more than a decade. McKinsey’s Women in the Workplace 2020 report finds that in the United States, one in five C-Suite leaders are women; one in 25 C-Suite leaders are women of color. An ISS Analytics study showed that nearly 80% of women executives are concentrated in finance, legal and Human Resources, not in operating and P&L roles that lead to CEO opportunities.

Working Mother Media’s 2019 survey of 3,000 men and women professionals showed that:

- 48% of men said they have received detailed information on career paths to P&L jobs in the past 24 months vs 15% of women.
- 46% of men were encouraged to consider operating roles vs 14% of women.

GOALS

- 8% and 17% of women occupying the C-Suite have substantial P&L responsibility by 2025 and 2030 respectively
- 25% and 30% of candidates assessed for C-Suite roles are women by 2025 and 2030 respectively
- 10% of all women in the C-Suite are women of color by 2030
- Equal numbers of men and women receive detailed information on career paths leading to line management roles by 2025
