ACTION INITIATIVE

WOMEN ENTREPRENEURS AND ACCESS TO CAPITAL

ABOUT WBC

The Women Business Collaborative is an unprecedented alliance of over 75 women's business organizations collaborating together to accelerate the pace of change. We are also a movement of millions of executives, business organizations, public and private companies, and the media. We reach our goals by collaborating and coordinating, amplifying and aggregating best practices and thought leadership against Nine Action Initiatives as areas to accelerate change. The Women Entrepreneurs and Access to Capital Action Initiative accelerates women's ability to attain financial resources while collaborating amongst each other and creating strong networks.

VISION

Success is the ability of more women to access venture capital to accelerate their growth, and to have the opportunity to work with a larger number of women-owned venture capital (VC) firms who are focused on helping women raise the dollars they need to achieve growth.

The Women Entrepreneurs and Access to Capital group has a laser focus on increasing the revenues of businesses owned by women of color. Each partner organization has a focus on increasing participation and membership among women of color, and the initiatives to accelerate growth and increase access to capital are also targeted to women entrepreneurs of color.

OUTLOOK

According to Pitchbook, women-led startups constituted 15.7% of deals in 2019. Yet, "in 2021, companies founded solely by women garnered 2.4% of the total capital invested in venture-backed startups in the US." One contributing factor might be the slight increase in the number of women sitting on the investor side. And, according to Women In Business Statistics, 42% of all privately-owned firms are women-owned, they contribute to just 8% of employment and 4.2% of revenues.

Women of color are starting businesses at a faster rate than businesses owned by other women; however, average revenues for businesses owned by women of color continue to lag behind. 42% of newly created women-owned businesses are started by black women. Latinx women represent 31% of newly created women-owned businesses, yet only 4% of the women founders who raised equity financing were black and only 2% were Latinx.

GOALS

- 20% increase in women-owned businesses generating \$5 million or more by 2025.
- The average revenues for minority women-owned firms grow by 25% by 2025.
- The percentage of venture capital available to women founders doubles by 2025 from 2.3% in 2018.

CHAIR

Monica Smiley, Publisher/CEO, *Enterprising Women*
Judith Goldkrand, WBC Board Director, SVP, Wells Fargo Bank
